Laboratorio MIST E-R

General Manager

maggio 2013 - Present

Bologna

MIST E-R is a network laboratory of industrial research and technology transfer of the Emilia-Romagna High Technology Network managed as a Public Private Partnership (PPP) consortium created in 2009. The company's shareholder structure includes National research Council CNR, Universities of Ferrara and Parma as well as companies operating in various manufacturing fields.

The laboratory is based on the access to multi-KETs competences coupled with the use of advanced equipment and facilities, employed to identify solutions with a TRL capacity from 4 to 7 (specifically to MIST E-R activities, but that extends from 1 to 9 with the entire partnership).

The services are open to members of the MIST E-R Public-Private Partnership (PPP) and to third parties.

KETs competences are currently implemented in collaborative projects ranging from biomedical sector and devices, photonics and advanced OLED lighting, advanced materials for cosmetics, ICT for environmental and cultural information systems.

MIST E-R offers the following services and supports industries on regional, national and international levels:

- Design and development of prototypes
- Analysis and measurements
- Data Mining and Machine Intelligence

Main Tasks as General Director:

- Strategic politics and business plan
- Human resources management

- NDA, contract, general agreement
- IPR valorization
- Project management and dissemination, interacting with a wide range of companies and institutions
- Management in technology and innovation
- Management in high tech sector
