

Rahul R. Nair is a Professor of Materials Physics at the National Graphene Institute (NGI) and School of Chemical Engineering and Analytical Science at the University of Manchester and holds a prestigious Royal Society Fellowship and ERC grant. His group is actively engaged in the design and development of 2D materials based membranes and nanofluidic devices for probing fundamental molecular transport at the nanoscale and their potential applications in our daily life. He has published over 50 highly cited peer-refereed research articles. His awards include a Leverhulme Early Career Fellowship from the Leverhulme Trust, IUPAP Young Scientist Award (2014) from the International Union of Pure and Applied Physics, the Moseley Medal and Prize (2015) from the Institute of Physics, Lee Hsun Lecture Award on Materials Science (2018), from the Chinese Academy of Sciences, Philip Leverhulme Prize (2018) from the Leverhulme Trust, and the Creativity prize (2018) from the Prince Sultan Bin Abdulaziz International Prize for Water (PSIPW).
