

Antonietta Taurino graduated cum laude in Physics in 1995 and received her PhD in Physics in 1999 at the University of Lecce. Since 2001 she is a permanent researcher at the Institute for Microelectronics and Microsystems of CNR. Her expertise is in the field of Scanning and Transmission Electron Microscopy as well as in the field of Focused Ion Beam techniques for nanofabrication and nanomanipulation of materials and devices for nanotechnology applications. Her research fields are related to nanostructured materials for different applications, ranging from sensors, optoelectronics and energy.

ISI WoS bibliometric indicators: total number of publications: 111; total number of citations: 1176; h-index=18 (<http://www.researcherid.com/rid/N-4175-2015>)
