

Stefano Stassi is currently an Assistant Professor with the Department of Applied Science and Technology, Politecnico di Torino. He received the B.S degree in Physics Engineering and the M.S. degree in Nanotechnology Engineering from the Politecnico di Torino, Torino, Italy, in 2007 and 2009, respectively. He received the Ph.D degree in Physics from the Politecnico di Torino and Istituto Italiano di Tecnologia in 2013. He was visitor researcher at Molecular Foundry of Lawrence Berkeley National Laboratory, Berkeley, USA, between 2014 and 2015 working on the fabrication of resonating MEMS. His current research interests include resonating MEMS sensor for chemical and biological analysis, and preparation and characterization of piezoresistive and piezoelectric materials. He published 58 articles on peer-review journals with more than 1000 citations and has an H-index of 18 (data from Scopus).
