

My name is Mohammad Sharbaf, born on November 26th, 1981, in Iran. I obtained my bachelor in 2008 and master in 2012 in conservation and restoration of cultural heritage, Art University of Esfahan-Iran and master in science and technology for the conservation of cultural heritage in 2016, La Sapienza, university of Rome. In the same year I started my PhD in Sapienza. I work on "New methods for the consolidation of Historical Gypsum Stuccoes and Handworks by Nano Materials". On April 2019 I won a research grant with the title of "mathematical models validation, as provisional tools for the chemical, physical and biological degradation of different materials of Cultural Heritage "at the Department of Chemical Engineering, Environmental Materials, La Sapienza, University of Rome.
